"By far the best dictionary we have seen for practical use."  
"The handiest and most convenient of dictionaries; the sort of book never to be away from the study table of a literary man."

LITERARY CHURCHMAN.  
"It is incapable of being surpassed.... It has evidently been compiled by a thorough German scholar, who, being himself familiar with the pre-

cise nature of the aid which the English reader or student of German needs, has set himself to supply it on the simplest and most perfect plan."

MORNING POST.  
"We have not seen any Pocket Dictionary, German and English, that can bear comparison with this. It is remarkably compendious, and the arrangement is clear."

"This is likely to be a most useful book. The course is excellently graduated, and the help supplied by the Vocabulary judicious." SPECTATOR.  
"The authors have hit on a plan likely to succeed with young pupils, but hitherto overlooked. It is that of supplying lively and memorable anecdotes and choice passages from popular English writers as materials for translation into French. The book is uncommonly good reading, even with no ulterior object of translation, and the compilers have shown admirable taste and judgment in their selections." ENGLISH CHURCHMAN.

## MATHEMATICAL & ARITHMETICAL WORKS.

By the Right Rev. J. W. COLENZO, D.D.,  
Lord Bishop of Natal.

### ARITHMETIC designed for the Use of SCHOOLS; to which is added a Chapter on DECIMAL COINAGE. Revised Edition, with Notes and Examination-Papers. 12mo, 4s. 6d.—KEY, 5s.

ADVERTISEMENT TO THE NEW EDITION.—My absence from England during the last ten years, and the pressure of official duties, have prevented me from bestowing that personal labour and attention which were necessary for correcting any defects in my "Arithmetic" which experience might find from time to time detect, and bringing it up to the requirements

of the present day. I am, therefore, much obliged to the Rev. J. HUNTER, formerly of the National Society's Training College, Battersea, who has made some valuable suggestions for the improvement of the book for school purposes, which have been carried out in the present edition, under my sanction and superintendence.

### ARITHMETIC for NATIONAL, ADULT, and COMMERCIAL SCHOOLS:

- II. Examples, PART I. *Simple Arithmetic*, price 4d.
- III. Examples, PART II. *Compound Arithmetic*, price 4d.

### COLENZO'S ARITHMETICAL TABLES, on Card. Price 1d.

### The ELEMENTS of ALGEBRA designed for the

Use of SCHOOLS, Part I., containing the simpler Parts of the Science, suitable for general School purposes, and as required for the attainment of an ordinary B.A. degree. New Edition, to which is prefixed a Sketch of the History of Algebra, by the Rev. T. H. GROSE, M.A., Fellow and Tutor of Queen's College, Oxford. 12mo, 4s. 6d.—KEY, 5s.

It will be seen that the easiest kinds of Simple Equations and Equation Problems are in this Edition introduced much earlier than is usual in Treatises on Algebra. But there seems no reason why this branch of the subject, which is so interesting to most Students, and gives them some idea of the practical applications of the Science, should not be brought forward as soon as possible.

The alterations made in the New Edition

were suggested chiefly by the experience of the Rev. J. HUNTER, M.A., formerly of the National Society's Training College, Battersea, and have been carried out under the sanction and superintendence of Bishop COLENZO. The Sketch of the History of Algebra by the Rev. T. H. GROSE, M.A., prefixed to the latest Edition, has also been added with the sanction and approval of the Bishop of Natal.

### HUNTER'S EXAMINATION QUESTIONS on COLENZO'S ALGEBRA, Part I., with Graduated Exercises, Problems, &c. 12mo, 2s. 6d.

### COLENZO and HUNTER'S INTRODUCTORY ALGEBRA; containing the Chief Rules in the First Part of "Colenzo's Elements of Algebra," simplified with Additional Illustrations, and followed by a large Appendix of New Examples arranged in the Order of the Rules. 18mo, price 2s. 6d.—KEY, 2s. 6d.

### COLENZO'S ELEMENTS of ALGEBRA designed for the Use of SCHOOLS, Part II., adapted to suit the wants of more advanced Students; containing the higher parts of the subject, with an Appendix of more difficult Miscellaneous Examples and Equation Papers. 12mo, 6s.—KEY, 5s.

New Edition, thoroughly revised, with Solved Examples of Deduced Problems and Theorems, and the Figures of Euclid arranged by themselves for Examination. 18mo, 4s. 6d., or, with a KEY to the Exercises, 6s. 6d.

### COLENZO'S GEOMETRICAL EXERCISES and KEY. 18mo, 3s. 6d.

### COLENZO'S GEOMETRICAL EXERCISES separately, for the Use of SCHOOLS where other Editions of *Euclid* may be employed. 18mo, 1s.

## RICHARD BENTLEY & SON'S NEW WORKS.

**UNDERGROUND JERUSALEM:** an Account of some of the principal Difficulties Encountered in its Exploration, and the Results obtained. With a Narrative of an Expedition through the Jordan Valley and a Visit to the Samaritans. By CHARLES WARREN, Captain in the Corps of Royal Engineers, F.G.S., F.R.G.S., Assoc. Inst. C.E., late in Charge of the Explorations in the Holy Land. Demy 8vo, with Illustrations, 21s.

**The LETTERS of ELIZABETH BARRETT BROWNING.** With Commentaries on Contemporaries. By R. H. HORNE. Edited by S. R. TOWNSEND MAYHEW. 2 vols. 21s.

"The reading public will be thankful for a gift so interesting and so touching. . . . These letters show a simplicity almost girlish, and a sweet irony, that are as graceful as they are surprising in one who saw so little and who suffered so much. The early ones are somewhat reserved and deprecatory; the young authoress holds her correspondent in great awe, scarcely dares to question one of his dicta; but by degrees she grows bolder, she is less deferential to Mr. Horne, and her livelier letters are simply delightful. . . . It has never hitherto been known how much Mr. Horne owed his invalid friend, and it is one of the most interesting surprises of these volumes."—*Examiner*.

**PICTURESQUE HOLLAND.** By Henry HAYARD, Author of "The Dead Cities of the Zuyder Zee." Demy 8vo, with Map and 10 Illustrations, 16s.

**WIVES, MOTHERS, and SISTERS.** By Lady HERBERT, Author of "Three Phases of Christian Love," "Impressions of Spain," &c. 2 vols. large crown 8vo, 21s.

"A book which, apart from the charm of its narrative, is a most valuable contribution to the literature affecting the great social question of the day—that is to say, the proper status of women."—*Morning Post*.

**The CHURCH and ITS ORDINANCES.** By the late WALTER FARQUHAR HOOK, D.D., Dean of Winchester. Edited by the Rev. WALTER HOOK, Rector of Porlock. 2 vols. demy 8vo, 21s.

**OLD NEW ZEALAND; a Tale of the Good Old Times, and a History of the War in the North against the Chief Heke.** Told by an Old Pakeha Maori. With a Preface by the Earl of PEMBROKE. In demy 8vo, 12s.

"The best book ever written about a savage race."—*Athenaeum*.

THE SECOND EDITION OF  
**MR. FREDERICK WEDMORE'S STUDIES IN ENGLISH ART.** Gainsborough, Morland, Wheatley, Sir Joshua Reynolds, Stothard, Flaxman, Girtin, Crome, Cotman, Turner (in "Liber Studiorum"), Peter de Wint, George Mason, Frederick Walker. By FREDERICK WEDMORE. In crown 8vo, 7s. 6d.

"The freshness and sincerity of Mr. Wedmore's criticism explain the apparent irregularity of his method. . . . Its order is not merely fortuitous. . . . We know of no other writer who has approached this side of Gainsborough's work in a spirit at once so just and sympathetic. . . . The chapters on Crome and Cotman rank among the very best in the volume."—*Pall Mall Gazette*.

**THE ACTS OF THE  
PARLIAMENTS OF SCOTLAND.**

Complete in 12 vols. folio, price 9*l.* 9*s.*; or,  
with the Index Volume, price 12*l.* 12*s.*

Volumes V. and VI. are now printed for the first time from the Original Record, and are intended to supersede the corresponding volumes formerly issued. When these volumes were prepared for publication in 1817 and 1818 respectively, the Original Record of Parliament for the period embraced in them was believed to be lost; but it was soon after discovered in the State Paper Office in London. Although, therefore, they were edited from the best materials then available, there are great omissions, and they contain much that is not authentic. This reprint of them, besides being perfectly authentic, contains so much additional important legislation, both public and private, extending to about 2,000 Acts, Ordinances, &c., or about 1,050 folio pages of print, that the original two volumes are now extended to three. The sixth volume also includes an Appendix, extending to about 200 pages, entitled "The Government of Scotland under the Commonwealth," showing how the country was governed during the ten years preceding the Restoration—1650-61—when there was no Scottish Parliament. This has been compiled from records and official documents preserved at the Public Record Office, London, the British Museum, the General Register House, and elsewhere, as is fully explained in the Preface to Volume V.

The original Volumes V. and VI. having been prepared and sold by the Government as part of the authoritative Edition of the Acts of the Parliaments of Scotland, the three volumes now published to supersede them will be exchanged for them without charge.

Volume I. having been published in 1844, with six distinct series of pagination, it was found necessary to adopt one continuous pagination to enable it to be indexed. The copies of this volume remaining in the Register House have been re-paged at press, and will be sold as formerly at 2*l.* 2*s.* per copy, or exchanged without charge for those at present in circulation. Full directions are given in the Index Volume to enable anyone to re-page his own copy.

Those who wish to exchange the copies in their possession for the reprinted Volumes, are requested to communicate with the CONTROLLER of the STATIONERY OFFICE, London; or with Messrs. A. & C. BLACK, Booksellers, 4 North Bridge, Edinburgh, who will direct them as to the forwarding of their copies.

**ON THE EXISTENCE OF MIXED  
LANGUAGES;**

*Being an Examination of the Fundamental Axioms of  
the Foreign School of Modern Philology, more

Prize Essay by J. C. CLOUGH, F.R.His.S.

8vo, 2s. 6d.

**CONTENTS.**

**GENERAL EXAMINATION OF THE SUBJECT:—**

Jargons—Lingua Franca of South Europe—Maltese—Hindustani—Gypsy or Romany—Persian—Turkish—Basque—Celtic—Romance Languages generally—Spanish and Portuguese—French—Wallachian—Teutonic Languages generally.

**THE ENGLISH LANGUAGE:—**

The English Language is Mixed—The Anglo-Saxon Element—Other Germanic Elements—The Norse Element—The Celtic Element—Elements from Distant Parts—The Latin and Neo-Latin Element—English is a Tonto-Romance Language—On English Pronunciation.

"This is a book which may be read with profit even where its conclusions are not accepted. The author has taken very considerable pains with his subject, has amassed a vast quantity of material from the newest sources, and, above all, is not afraid to have an opinion of his own, even when that opinion is opposed to such authorities as Max Müller and Dr. Morris. . . . The book is made up of examinations of various languages to make out his case. Thus there are chapters on jargons—such as Creole-French, pigeon-English, nigger-English, and nigger-Dutch, the Lingua Franca of South Europe, Maltese, Romany, Basque, Turkish, Wallachian, &c. It will be seen that this book covers a deal of ground. . . . But we have said enough to call attention to a book which deserves to be read."—*Educational Times*.

"Long, elaborate, and learned investigation into the nature and origin of existing tongues. . . . We are disposed to draw attention to the points of the book as one which must be extremely interesting, by its large amount of more or less fresh-looking material, and its vigorous argument. . . . A valuable and important work, which must throw light on many moot points."—*School Board Chronicle*.

"His book shows deep learning and acumen, and will open the eyes of the reader to see the effects that different events in the history of the English people, and especially the Norman Conquest, had on the language of the Anglo-Saxons themselves. . . . He has enlarged the circle of our knowledge of the nature and qualities of the English language, and has thrown much light on the question at issue."—*Yr Haul*.

"It contains much interesting matter in the way of new facts and arguments in support of the doctrine that mixed languages, true hybrids, may and do exist."—*Letter from His Excellency G. F. Marsh, Author of the Student's Manual of the English Language*.

"He writes with a considerable knowledge of his subject, and has invested what might seem a very dry question with a great deal of interest. His book is a useful contribution to philology."—*School Guardian*.

"In the work before us, though addressed more particularly to philologists, the general reader will find much that is entertaining in the analogies the author has pointed out in the words and modes of expression selected from various languages in support of his views."—*The Schoolmaster*.

"Evinces great learning and research, and will prove most interesting to all who are at all given to philological studies. . . . One is struck by the fact that our author seems to be as familiar with the great variety of French provincialisms, vocabulary, and pronunciation as he undoubtedly is with those of England. . . . In order to form an idea of the treatise as a compendious philological work, or of the argument it is written to sustain, the reader must be carefully read and studied; and the study will richly repay the labour."—*Cambridge Journal*.

"The writer of this very learned essay has not erred on the side of prolixity or dryness, for he has disposed of the whole question in a very small space, and has produced a treatise that can be read with interest by any classical scholar possessing the most moderate acquaintance with the ancient tongues."—*Northern Whig*.

"A most interesting and exhaustive essay. . . . Able and most instructive work."—*Western Morning News*.

"Presents much curious and interesting information with regard to words generally."—*Rock*.

"The author in our opinion most conclusively shows that English certainly presents the case of a speech mixed in every point of classification. It is due to Mr. Clough to say that he has made a somewhat stiff and difficult subject intensely interesting. . . . Although Mr. Clough has ventured to differ from such high authorities as Max Müller and Dr. Morris in his views of English etymology, he is well able to hold his own; and we cannot speak of this new contribution to comparative philology and the word-building of the English language except in terms of the warmest approval."—*Liverpool Mercury*.

"We think, notwithstanding the weight of the authorities against him, the writer has made out his case. . . . The book is well worth study by all who are interested in the science of language."—*Yorkshire Post*.

"Mr. Clough's arguments are very forcible, and are supported by a vast array of evidence. . . . The essay bristles with facts and illustrations—some of them very curious—evincing considerable philological learning and no small share of critical and analytical acumen."—*Scotsman*.

"Well written and clearly put together, and the facts and illustrations he has collected are for the most part correct."—*Academy*.

"A large quantity of matter, most useful, nay, indispensable to the student of languages. . . . The arrangement and withal the critical faculty apparent therein go far to win a name for the author, not only as a linguist, but as a comparative philologist."—*Daily Review*.

"Full of information, and the facts collected are usually accurate."—*Rev. A. H. Sayce in Nature*.

"Mr. J. C. Clough's well-arranged essay gives evidence of considerable industry and good sense. . . . He has proved his point, and fully established the counter-proposition. . . . Interesting and useful volume. He has compressed a great amount of matter into the small compass of 123 pages by dint of method and concise statement, thereby producing a very creditable monograph."—*Examiner*.

"Worthy of some attention, more particularly from those whose opinions he combats. . . . It would be most desirable to have a reply from either of his opponents."—*North British Daily Mail*.
